Mobile Consumers

Design a Van With a Visually
Appealing Exterior

A visually appealing mobile van will offer your clients a unique and memorable experience, setting you apart from other traditional photographers.

Design a Van With a
Functional Interior

Creating a van with a fully functional interior will allow Nashville Flying Dress to reach mobile consumers without the need to go to a brick-and-mortar location. Inside the van, there could be an area to view the dresses, a desk to make quick alterations, and a computer to set up appointments

Mobile Consumers

Market the Mobile Service on the Nashville Flying Dress Website

By having the Nashville Flying Dress van as a main feature on the website, mobile consumers can view the experience they receive when booking an appointment. It's important for small businesses to have an online presence, especially in today's digital age.

Attend Pop-up Shops and Local Events

The number one priority for building a small business is building a strong connection with your customers. This company will need strong connections with the Nashville community if they want longevity, and a mobile van will make it much easier to interact with the community. You can gain relationships, gather feedback, and build a loyal customer base.
